PRICE 2 CENTS

MURDOCK SLAMS WORSTED TRUST

Red-Haired Kansas Insurgent Makes Lively Attack.

WANTS WORSTED FABRICS FREE

Representative Mann of Illinois Criticizes Underwood Bill as Revenue Producing Measure—Dalzell Applauds Murdock.

Washington, June 9.—Representative Victor Murdock, the red-haired insurgent from Kansas, made a lively attack on the worsted trust in the course of the general debate on the Underwood wool revision bill in the house.

Mr. Murdock devoted particular attention to the 40 per cent duty on worsted cloths which the Underwood bill provides, insisting that this meant protection to the trust that controls the worsted output. Representative Dalzell of Pennsylvania, standpatter-in-chief, led the applause that greeted Mr. Murdock's assaults on the Democratic wool measure.

"Times have changed," commented some of the majority members when they noticed Mr. Dalzell's enthusiastic endorsement of Murdock's remarks.

The worsted trust has increased the price to your constituent, to mine, for the clothes he wears," he said. "The worsted trust has by stock manipulation paid out in eleven years, on probably not over \$15,000,000 investment, \$22,000,000 in dividends and has built up besides an establishment carrying a capital of \$60,000,000 with a surplus of \$10,000,000 on hand on top of that.

The worsted trust has dominated its own field, manipulated successfully the field of its rival, the carded woolen interests, has dictated to the clothing trade and twisted and turned the thumb screws on the purchaser of fabrics without stint, mercy or conscience.

"It has had the privilege of a 'joker' in the raw wool classification of schedule K., also of a 'joker' in the yarn and top duty and also in the enormous duty on the cheap grades of cloth.

It has had the advantage of employing more women and children proportionately than the carded woolen interests and paying them on the average less.

Petted and pampered, privy at least once to the secret deliberations of a tariff writing committee, full-fed on the unfair provisions of the tariff, gross and greasy from the fat fried out of your constituents and mine, the worsted trust is not deserving of the fostering care of this government in shape of a protecting duty and no man on that side in his servility to the caucus and no man on this side in his servility to partisan preconception can afford to vote against an amendment making all worsted fabrics free."

Representative Mann of Illinois, the minority leader, opened the debate by criticizing the effectiveness of the Underwood bill as a revenue producing measure. He also questioned the accuracy of the information on the wool schedule which has been submitted to the house by the ways and means Democrats.

SLOW START OF INQUIRY

Lorimer Case Probers Study Helm Committee Report.

Senators Will Take Testimony After Digesting Evidence Obtained in Illinois.

Washington, June 9.—Members of the special committee of the senate appointed to reinvestigate the election of Senator Lorimer of Illinois probably will not begin their formal investigation until the middle of next week at the earliest and possibly not before week after next. The committee only received proof sheets of the testimony taken by the Helm investigating committee of the Illinois senate, which contained evidence almost entirely new to the senate, and it is believed it will take the committee at least until Monday to digest this evidence.

In addition, three members of the investigating committee have never before been concerned with the election of the Illinois senator in their official capacity as senators, and it is understood they may wish a little time in which to familiarize themselves with the testimony taken by the previous investigating committee of the senate.

The real stumbling block to an immediate opening of the investigation, however, lies in the proposed organization of the investigating committee. Under the terms of the resolution passed by the senate the committee is authorized to hire clerks, accountants and counsel. It is the desire of the committee that all of these officials may be of such standing as to claim the confidence not only of the senate but of the country.

FIND MILLIONS IN TREASURES

Seekers After Lost Gold Uncover Big Cache.

HIDDEN TWENTY YEARS AGO

Expedition of the Steamer Star Eureka Proves a Complete Success—Treasure Estimated at Many Millions.

San Diego, Cal., June 9.—A message received here from a party of treasure seekers aboard the Star Eureka says their expedition to recover an immense cache of gold, hidden by the crew of a Chilean cruiser off the Honduran coast more than twenty years ago, has been successful.

The treasure has been variously estimated at from \$15,000,000 to \$65,000,000, according to reports circulated here of the Eureka's quest. The steamer is now headed for this port.

The Eureka is in command of Captain Burtiss and was taken on a thirty-day charter by a party of San Franciscans people about two weeks ago.

The expedition is said to have been financed by Harry Krelling, a well-known clubman of San Francisco. The map, showing the location of the buried treasure, is said to have been in the possession of a former resident of Honduras, who succeeded in interesting Krelling in his story of buried gold.

The result was the chartering of the Eureka.

The fact that most of the South American republics will not allow exportation of gold made it necessary to guard the plans of the expedition.

The message received from Salina Cruz read:

"Expedition a success in every way. Reach San Diego for oil next week."

GAVE CHILDREN \$20,000

Death of Man Whose Delight Was to Make Youngsters Happy.

Belleville, Ill., June 9.—William Schaefer, said to have distributed \$20,000 in gifts to school children in ten years, is dead. Recently his relatives had a conservator appointed to prevent him from giving away all his means. For years he had attended regularly the picnics of school children, always going to them with his pockets filled with nickles and dimes with which to gladden the hearts of his little friends.

Schaefer was also known as a friend to tramps, never refusing a call made by one upon his generosity.

FOUR-FOOT BLUE RACER KILLED BY R. D. SMITH AT HIGHLAND CEMETERY

A blue racer four feet two inches in length was killed by R. D. Smith at Highland cemetery Thursday afternoon. Mr. Smith was in the cemetery looking over the damage which was done by the recent cyclone when he happened to meet the reptile in one of the drives. He was quickly dispatched without ceremony.

This variety of snakes is almost extinct in this locality.

BOARD OF REVIEW.

A meeting of the Board of Review of the City of Ypsilanti, Michigan, will be held at the Council Chamber on Tuesday and Wednesday, June 6 and 7, for the purpose of reviewing the assessment roll of said township and also on Monday and Tuesday, June 12 and 13, for the correction of assessments, the said meetings to commence at 9 o'clock a. m. and continue until 4 o'clock p. m. each day.

FRANK JOSLYN, City Clerk.

WORK IN THE SLUMS MOST NECESSARY

—Hon. Harris Cooley

The concluding number of the Normal Lecture course was given Thursday evening in Normal Hall by Hon. Harris Cooley, whose work in Cleveland among the criminal and dependent classes has attracted unreserved admiration. His subject was "The Conservation of Human Life." This is in line with the conservation of forests and coal deposits, streams and waterfalls that is receiving such wide attention, he suggested. Its urgent need was indicated by certain facts he presented: for instance that there are 1,200 people to the acre in parts of New York City; that all the people in the world could at this rate be crowded into the small state of Delaware; that an entire family often lives there in a single room, or even twelve unrelated people; that people are born, fall sick, die in a congested condition such as this. This state of affairs he contrasted with the circumstances that there is one man in this country whose income is probably \$500,000 a year.

The slum problem is really the civilization problem," he said. "They are the breeding places of vice, disease, the social evil, the drink habit, the drug habit, and other evils arising from abnormal living." Dr. Cooley left one to fancy the consequence of the findings in the four largest cities in Ohio in regard to working girls' wages, which were that the wages were \$4.83, while the cost of living was \$5.24. "I feel sure," he said, "that if people lived comfortably most of the crime would cease to be. Workhouses were comparatively deserted in Cleveland at the time the city was laying gas mains and there was work for all. The slums are not tumble-down buildings and rookeries—they are people. They are our brothers and sisters, made in the image and likeness of God." Dr. Cooley said that good people go down to work in the slums under the conviction often times that the people down there are not sensitive. To illustrate this, he related the story of a little girl who had been asked to dine with a rich woman, whose visit to her mother's home she was imitating when she asked, politely, "How many of your children are self-supporting?" This might easily be an embarrassing question for many rich parents, the speaker thought.

London has spent more than \$100,000 in improving the housing conditions of her people, Dr. Cooley stated. Berlin has spent more than London. In Belgium and certain other places men are transported from the city to their work in distant factories at greatly reduced rates—15 cents a week for a daily ride of 20 miles, in one instance. The lecturer knows one man who has given up his Thursdays to investigating and bettering conditions among the poor in Cleveland.

"There is a feeling," Dr. Cooley said, "that poor people try to deceive in asking for aid, but on the contrary, they generally do not ask until they are compelled to. But what the poor do for the poor is infinitely more than what the rich do for the poor." There is constantly increasing interest in this problem, the speaker maintained. At the time of the Cherry mine disaster, each family received on an average \$3,500. England is spending \$65,000,000 a year in old age pensions.

Dr. Cooley at this point spoke somewhat of the work with which he is associated in Cleveland. That city has purchased nearly 2,000 acres of land, which made a tract three square miles. On this tract four institutions have been placed, each of which takes

SECRET AGENTS ALONG BORDER

Mexican Government Stations Them to Watch for Junta.

ARMED UPRISING IS FEARED

Former Governor Redo of Sinaloa Arrested in El Paso—Two Federales Executed at Culiacan Tuesday Night.

El Paso, June 9.—Secret agents of the Mexican government are being scattered along the border, it is declared here, to watch for junta which they believe the socialists are going to form with the idea of opposing Madero with armed force.

The discovery of the plot here is serving as an incentive for the Madero and government agents to get active. The men are still held in jail. Twenty-six more guns were found in the sand in the river bed, where Magonists had hidden them.

It is still insisted by agents of the Mexican government that federal soldiers numbering 1,500 will soon pass through Ciudad Juarez and El Paso on their way from the city of Chihuahua to Lower California. Through the consulate at El Paso the Mexican government has adopted arrangements with the Southern Pacific railway to transport the troops.

A special from Nogales says that Governor Diego Redo, former governor of Sinaloa, who was reported assassinated when Culiacan fell, and who arrived on a special train, was arrested and is being held. Twenty-five members of his party, now on the American side, were warned not to return to Mexico under penalty of arrest.

Redo's brother-in-law, General Morales, and Captain Stein, prefect of the Puerto, were executed at Culiacan Tuesday night.

The Chinese government will demand an indemnity of a million pesos from the Mexican government for financial losses of its countrymen, besides pay for the killing of 203 Chinamen when the insurrectos took Torreon. Lan Foo, a banker of Torreon, has been designated by the Chinese government to prepare a report on the situation, including statement of all financial losses.

GOVERNOR W. R. STUBBS

Kansas Executive Speaks at Unveiling of Shaft to John Brown.

PRESIDENT TAFT VISITS NEW YORK

Executive Reviews Parade of 150,000 Children.

SPEAKS TO COTTON SEED MEN

Tells Them All About Canadian Reciprocity and Why He Thinks Its Adoption Will Benefit the Country.

New York, June 9.—Brooklyn entertained President Taft, with Governor Dix, Secretary of War Stimson and British Ambassador Bryce and other notables lending luster to the event.

The president reviewed a parade of Sunday school children, saw a lacrosse match and spoke in two clubs and two churches. About 150,000 Sunday school children took part in the day's celebration. The president reviewed the parade from a stand in Prospect Park.

At 6:30 p. m. the revenue cutter Seneca took President Taft and his party across the bay and down East river for the Cotton-Seed Crushers' banquet in Manhattan.

At this banquet Mr. Taft made an address, speaking in part as follows:

Mr. Taft began by a reference to the growth of the cotton seed oil industry and to the fact that the Canadian reciprocity bill would secure the admission of the oil into Canada free of duty. He continued:

"Under the treaty vegetables and fruits of all kinds enter Canada free. One of the greatest branches of the farming industry in the south is truck farming and the bringing of early vegetables to the north. The same thing is true of fruits and berries. With the introduction of these free into Canada you will secure other customers with a valuable trade that will add greatly to the demand and that will certainly expand your industry and maintain the price at which it can be profitably carried on."

"The treaty has opponents, however, vigorous, active and vociferous, and the arguments against it are not always of a direct character. The house of representatives, soon after it passed the bill embodying the reciprocity agreement, passed a bill known as the farmers' free list. In my judgment it was unfortunate and unjust that this bill should have been introduced and adopted by some on the theory that it was a sop to the farmers to make up for the injustice and injury assumed to have been done them in the Canadian reciprocity bill, for there is no injustice done to the farmers in the Canadian reciprocity agreement. Whether the farmers' free list is a measure which ought to be passed is a question on the merits of that bill and is to be and ought to be determined upon considerations wholly apart from the merits of the Canadian reciprocity.

"I am glad to say that Mr. Underwood

Treat-VanSickle Wedding
Samuel B. Treat of Pittsfield and
Miss Leah VanSickle of Northville,

both Cleary College students were
quietly married at the bride's home
Saturday, June 3. Both have been in
college since the first of January and
left Ypsilanti Friday for home and
were married Saturday. Mr. and Mrs.
Treat will be at home at Hudson after
July where Mr. Treat has a position.

Reyer Recital Monday
The recital of William Reyer which
has been postponed a number of times
has been set for Monday evening, June
12, at Normal hall, at 8 o'clock. Mr.
Reyer will be assisted by Minor White,
pianist.

Hold Annual Party
The annual spring party of the Al-
pha Sigma Tau sorority will be held
Saturday evening, June 10, at the
Country Club.

Mrs. F. C. Burton will spend the
week end with friends in Detroit.
F. M. Beall is a Detroit business
visitor today.

A new electric sign has been placed
in front of the Hawkins House.

W. J. Madden of Toledo is an Ypsi-
lanti business visitor today.

Mrs. J. O'Connor of Owosso is vis-
iting her sister, Miss Louise Hourt,
for a few days.

Mr. and Mrs. W. R. Thompson have
returned from their wedding trip and
are the guests of the latter's mother,
Mrs. E. P. Allen.

Foss O. Eldred of the Normal fac-
ulty will deliver the commencement
address at Brown City this week.

Mrs. W. B. Huntley of Mason is
spending a few days with her aunt,
Mrs. Nellie May.

Mrs. F. C. Burton will leave Friday,
June 16, for Salt Lake City where she
will spend the summer in study at
Utah University.

Miss Elfrieda Drake is expected
home from Brown City today, where
she has been teaching the past year.

Miss Alma Wylie who has been
studying at the Sargent School at
Cambridge for the past year is visiting
Normal College friends. Miss Wylie
attended the Normal last year.

Mrs. Peter Myer of Cleveland re-
turned to her home Friday morning
after visiting a week with her cousins,
Mrs. W. P. Brooks, Mrs. A. P. Fer-
guson and Mrs. J. P. Kirk.

John E. Culver of Bloomingdale,

brother, Chester, and other relatives.
He will remain until after the en-
campment.

In the illness of A. V. Trotter, Her-
bert Shaw of Detroit is attending to
his insurance business.

NASAL CATARRH
Mrs. E. Karbery Says It is Easy to
Get Rid of

"A bad case of catarrh was cured
for me by the use of HYOMEI. The
trouble affected my head, nose and
eyes, and was very annoying and dis-
agreeable, and the cure from the use of
HYOMEI, was very gratifying.
HYOMEI has from me a strong recom-
mendation and endorsement."—Mrs. E.
Karbery, 213 Kingsley St., Ann Arbor
Mich., Nov. 16, 1908.

HYOMEI (pronounced High-o-me)
cures catarrh, because it gets where
the germs are, and destroys them. It
is made of Australian eucalyptus,
mixed with other healing antiseptics.
When you breathe over the irritated
membrane, it gives relief in two min-
utes.

Used regularly for a few weeks it
will build up and heal the germ infes-
ted membrane and drive out cat-
arrh.

If you own a small Hyomei pocket
inhaler, you can get a bottle of HY-
OMEI at druggists everywhere, or at
Duane Spalsbury's for only 50 cents.
If you do not own a Hyomei inhaler,
ask for a complete outfit, the price is
\$1.00. It is guaranteed to cure cat-
arrh, coughs, colds, croup or sore
throat, or money back.

PAINLESS FEET.
Ypsilanti is Full of Them Since Duane
Spalsbury Commenced to Sell Ezo.

There is no reason on earth why
anyone should suffer another day
with painful, swollen, burning, feet
or foot misery of any kind, when a
large jar of Ezo costs but 25 cents at
Duane Spalsbury's.

Not a powder, mind you, to clog
up the pores, but sooths, healing
refined ointment that takes out all
pain and soreness, and leaves the feet
feeling fine and comfortable.

Your feet may be so sore that you
cannot walk on them tonight, rub on
Ezo and you will enjoy a walk to-
morrow morning.

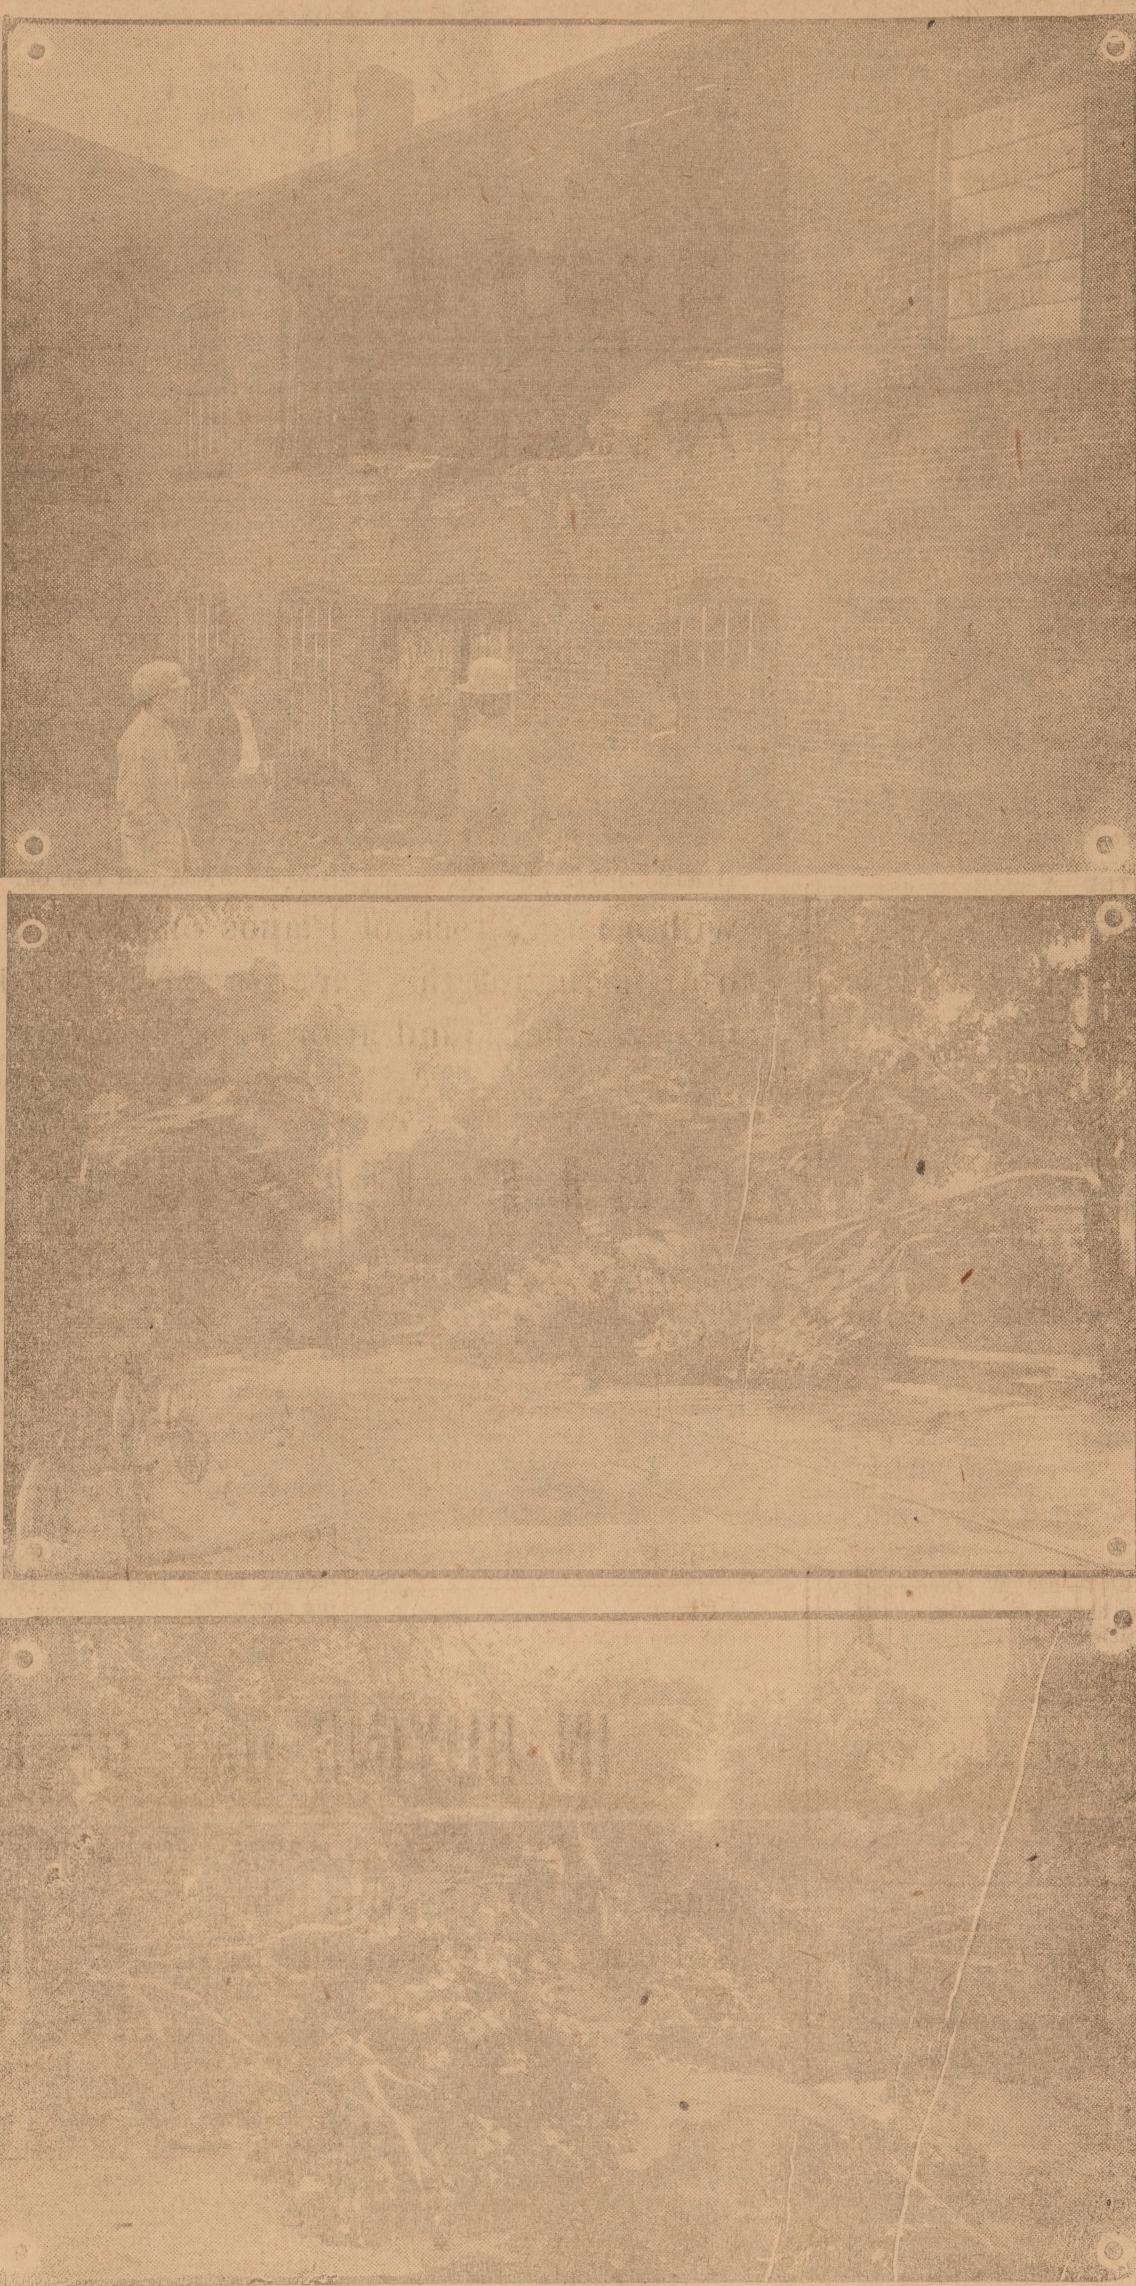

Use Ezo for sore corns, for dis-
agreeable bunions; use it when break-
ing in new shoes or before dancing.

Very pleasant refined ointment is
Ezo, and there is nothing better for
sunburn, rough skin, blackheads, ec-
zema or itching skin.

WORK IN THE

(Continued from page 1)

care of people suffering from some
phase of poverty, or misfortune or
crime. The aged couples who here
have found an asylum live in apart-
ments by themselves with their few
possessions. Over this building runs
the legend, "To lose money is not so
bad as to lose love." "These people,"
Dr. Cooley said, "by their pale cheeks
and swollen joints show they have
done their part of the world's work."
He once took a party of Japanese who
were touring the country out to this
place. They manifested the keenest
interest and remarked that since they
had been in America they had been shown
factories and business places, etc.,
but that this old people's home out of
Cleveland pleased them best. One of the
Japanese later sent him a hundred
dollars for this place, and he re-
marked humorously that after that
he was always looking for some Jap-
ANESE to take out to the farms.

The reflex benefit of work devoted
to alleviating distress the speaker
emphasized. "The largest benefit of
any kindness that we do comes back
to us." One little fellow who had
lived all his life in the grime of a
big city was taken to the boys' home
in Hudson, where for the first time
he experienced home life and could
see nature in her bigness. He said
one night, "Come out, Mr. Cooley, and
see what fine stars we have down here
at Hudson."

Await Quick Buyers At Our Great Sale Of Students' Pianos

Each season we rent a large number of Pianos to the students of the Normal College; this year more than ever before, and now on account of the Summer Vacation these are being fast returned, and they find us with a large stock of Pianos on hand, with warerooms already filled. Rather than ship these back to Detroit, incurring this expense and subjecting them to risk of damage in transportation, we are going to close them out here, and at once. Our prices insure a speedy clearance.

SALE BEGINS SATURDAY, JUNE 10th
At Our Ypsilanti Store, 210 W. Congress St.

These Pianos are in splendid condition, the usage they have received has not harmed them, every one has been carefully tuned and adjusted by our experts and in many cases they cannot be told from new, yet

IN BUYING ONE OF THESE PIANOS YOU SAVE ALL THE RENT

And in many cases even more, for these instruments must be disposed of in the shortest possible time, and if a big bona-fide saving is any object to Piano buyers of Ypsilanti and vicinity, these instruments will not remain long on our floors.

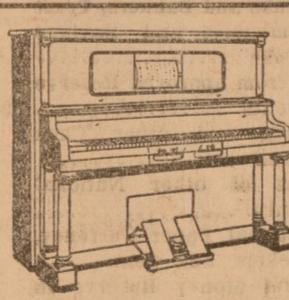

A Small Payment Down, Balance \$3, \$5, \$7, Etc. Monthly

This Sale presents a rare combination of low prices and easy terms--no reason why any home should be without music--This is YOUR opportunity--don't let it pass.

During the vacation season would be an excellent time for the young people to commence the study of music, the saving you effect through buying now will pay for many lessons. A Piano in the home adds to its attractiveness and pleasures in marked degree, and so easy do we make the purchase of these beautiful sweet-toned instruments that no home need be longer without the enjoyment and the refining and ennobling influences a Piano always brings.

ENTIRE STOCK OF ROOT'S MUSIC HOUSE INCLUDED IN THIS SALE

We recently purchased the entire stock of this well-known Ann Arbor music house at a very great reduction. We are now prepared to close these instruments out, and a part of the stock has been sent to our Ypsilanti store and included in our great sale of Students' Pianos. Buyers are afforded a splendid variety of beautiful instruments to select from--musical value absolutely without parallel in this section, if not in the entire country. The few instruments shown herewith will give you some idea of the wonderful bargains awaiting quick buyers--every instrument in the entire sale stock presents value equally as great.

EMBROIDERED GOWNS.

They Are Fashionable In White and Colored Decorations.

GOWN IN EYELET EMBROIDERY.

This pretty gown, appropriate for a girl's graduation or for afternoon wear during the summer, is made of linen, heavily embroidered on skirt and waist. It is finished with a knotted girdle of velvet that falls halfway down the skirt.

Lingerie dresses are exceedingly pretty this year, and they are quite simple too. The girl with spare minutes on her hands may employ them profitably in beading a frock for summer. White is the most popular material, and the color scheme is given by colored beadwork or by embroidery that simulates beadwork. A little around the neck and sleeves, a line around the waist and, if you wish, a little more around the hem are quite sufficient.

The waist for the lingerie frock may be made with a square, round, pointed or just a collarless neck. The peasant sleeve is still correct, but it is getting shorter, an inch or so above the elbow being the preferred length.

Make your dress with a slightly raised waist line and wear a pretty sash.

GIRL'S MUSHROOM HAT.

Lace, Ribbons and Flowers Combined Make a Dainty Chapeau.

Mushroom hats of lace or embroidery are very popular for little girls. They may be easily fashioned by the amateur milliner, since no great skill is required in adjusting the soft lace over the wire frame. A few knots of ribbon or clusters of tiny flowers knotted here and there among the lace

CHILD'S LACE HAT.

are the only trimming required. These hats are most appropriate for wear with white lingerie dresses.

Children's hats seem to be prettier than ever, whether we consider them in the rough and ready sailor shapes for morning wear or in the more elaborate creations for full dress. The headgear of even the tiny tots is picturesquely made. Bonnets for little ones are made of white liberty satin. They are close fitting, but the satin is ruffled on the crown, the band around the face being plain. Embroidered side pieces are set in. The most attractive designs are tiny forgetmenot wreaths. Where the ribbon ties are set on there are rosettes of the white satin, in the center of which are tiny rosebuds.

Embroidered batiste caps have the tiniest bouquets of pink and blue flowers set on the left side of the front.

Old Gloves.

The palms of old kid gloves make very serviceable kneecaps, which can be stitched into children's stockings, thus avoiding constant darnings, while the arms of long evening gloves make good polishers or handy receptacles for carrying a silver toilet set when its owner is on a journey.

MRS. TOM L. JOHNSON'S SUIT

Late Mayor Tied Up Estate so that Family is Pressed for Money.

Cleveland, June 9.—Mrs. Tom L. Johnson's suit against the Mercantile Safe Deposit Company of New York is going to result in a complete airing of the financial affairs of the Johnson family and show the break between the late mayor's closest personal friends and his family. The Johnson family is pressed for money. Mrs. Johnson and another member of the family announced as much in New York.

It is no secret among the friends of the late mayor that the present conditions result from his effort to keep his estate intact for the benefit of his grandchildren. Loftin Johnson had shown a speculative tendency, and his father did not wish his part of the estate risked in that manner. Mrs. Johnson now believes that Loftin can manage the family's finances.

SAWBUG INJURING FRUIT

Growers at a Loss to Know How to Kill New Evil.

Grant, Mich., June 9.—Peach growers of this section are aroused over the appearance of a bug that may be the lately discovered sawbug that is doing much damage to the trees in this section. This bug, in color, is of a greenish hue, about three-fourths of an inch in length and preys upon the young shoots, cutting the shoot entirely away from the main branch, thus doing untold damage to the tree, in many cases ruining the chances for fruit the following season.

The bug was first discovered at work in the orchard of Paul Green, three miles north of Grant, and the growers are at a loss to know how to cope with the new evil, as their appearance has been noted in the best sprayed and well attended orchards.

FORMOSANS KILL JAPS

Ambush, Slay and Mutilate Thirty of a Force of Forty Soldiers.

Victoria, B. C., June 9.—News was brought by the Kamakura Maru of the annihilation on May 8 of a Japanese force in Formosa by the rebels against whom the Japanese have been campaigning for the last three years. It seems that three tribes which made peace were incited to rebellion by two tribes which remained obdurate.

Forty men of a force sent against the Formosans were ambushed, and, after fierce fighting, only ten escaped. The dead were mutilated, their heads being carried off by the head hunters.

CHILD POISONED BY NIGHTSHADE.

Berrien Springs, Mich., June 9.—Betty, the four-year-old daughter of Mr. and Mrs. Earl Kinney of this place, died quite suddenly after chewing a blossom from a nightshade.

JABOT END.

An Effective Pattern in Irish Crochet Lace.

This pretty pattern in Irish crochet lace is most effective for trimming a jabot. The rose in the center is first made, and then the filling about it is supplied with picot chains. The scal-

CROCHET JABOT END.

lops are simply re-enforced chains which have been covered with double crochet. A row of three scallops for the top section of the jabot which may be made of handkerchief linen, with a row of two beneath and a single scallop below, makes a handsome jabot.

Furniture Polish.

One ounce of shredded candle end, one ounce of beeswax, one ounce of shredded castile soap, a quarter of a pint of turpentine and three-quarters of a pint of boiling water make an excellent furniture polish.

Cover the shredded soap and two kinds of wax with the turpentine and leave for twenty-four hours. Beat up well and add the boiling water, gradually beating between each addition until there are no lumps and the mixture is of the consistency of cream.

Don't fail to take advantage of the Big Flower Sale at May E. Crane's Saturday.
